

PANTER'S CHICKEN CHOLERA CURE!

Thousands of dollars worth of chickens die every year from Cholera. It is more fatal to chickens than to all other diseases combined. But the discovery of a remedy that positively cures it has been made, and to be convinced of its efficacy only requires a trial. A 50-cent bottle is enough for one hundred chickens. It is guaranteed. If, after using two thirds of a bottle, the buyer is not thoroughly satisfied with it as a cure for Chicken Cholera, return it to the undersigned and your money will be refunded.

## The Election.

### A CLEAN SWEEP FOR DEMOCRACY.

#### EVERY DEMOCRAT ON THE TICKET GOES IN BY HAND-SOME MAJORITIES.

#### Breckenridge Again Redeems Himself And is no Longer on the Doubtful List.

#### A GRAND GLORIOUS TRIUMPH FOR THE RIGHT.

#### All the Magistrates in the County Democratic as Well as all the Constables.

#### A HOT DAY AND QUIET ELECTION ALL OVER THE COUNTY.

The election in this county was a very quiet and orderly one, although it was hotly contested and a big vote polled. There was not a disturbance of any kind and very little drunkenness. Up to noon the Republicans looked bravely and much encouraged, but as usual with them they made their grand rush in the morning and the evening found them with very little material to fall back upon. When the polls closed for dinner the Democrats had only about seven or eight majority in the two voting places. This was very encouraging to the Republicans, and when the polls opened at one o'clock they began their fight with renewed hope and claimed that the day was theirs. The Democrats were not in the least alarmed. They knew what they had behind and stood to their colors like little men. At two o'clock the Democrats had run their majority up to nearly four and had so completely demoralized the Republican workers that they left the polls and virtually gave up the fight. The Republicans were well organized and had their best men in the field who covered every inch of the ground and made a death struggle to carry the day. But it wasn't in the books for them. Right will prevail and Democracy, the peoples only refuge, for a true and honest administration of public affairs is again gloriously triumphant. Thursday the glad tidings of great joy in last Monday's victory.

We are unable to give the entire official vote of the county, but enough has been gathered to justify us in saying that the whole Democratic ticket has been elected by majorities ranging anywhere from three to three hundred votes. In this city the vote stood for Lewis 385, Yost 384, Longmire's majority over Timiney was 44. The following are the majorities for the county offices: Alderson for Judge 47, Monarch for clerk 35, DeJernette for sheriff 48, Cashman for assessor 49, Penitentiary for coroner 46, Slaton for jailer 53, Miller for Convention 40, Weatherholt for constable 82, Hambleton and Allen for justice of the peace were elected by majorities of 55 and 50 respectively.

Judge Board for county attorney without opposition received 383 votes, Jas W. Miller for County School Superintendent 385 votes.

The Hardinsburg District gave the following Democratic majorities, Monarch 16, Slaton 25, Miller 27, DeJernette 55, Mattingly 25, Yost 38, Bennett over Cashman 3, Tate over Slaton 53, Blanford 18.

At Union Star Alderson's majority was 40, Monarch's 24, DeJernette's 74, Cashman's 59, Slaton's 60 and Miller's 50.

At Stephensport the Republican majorities were for Mattingly 16, Cunningham 28, DeJernette 19, Yost 38, Bennett over Cashman 3, Tate over Slaton 53, Blanford 18.

In the Union Star district J. J. Severs and J. W. Jarrett two staunch democrats were elected magistrates by over 100.

F. W. Hambleton Term for constable.

Welcher precinct rolled up a handsome Democratic majority of 121 for the whole ticket. Likewise "Little South Carroll" Center and Big Springs contribute their usual good majorities while the "Cut Off" which generally contributes 40 or 50 to the Republican side is a stand off. Its mighty fist picking all around this time and the woods are full of Democrats. It wouldn't surprise us if the final count didn't show up majorities ranging from three to five hundred.

HARROCK CORY.

Hawesville, Aug. 5. The entire Democratic ticket both state and county, made a clean sweep. W. W. Barber candidate for county judge is elected by 100 majority; Ben Finkbeiner for county clerk goes in by 75. The rest of the Democratic ticket goes in by majorities from 20 to 300. Local opinion carried in this precinct by over 100 majority.

News comes from the precincts that the Democratic county ticket in Ohio

county is thought to be elected by fifty majority. Hon. H. D. McHenry candidate for the constitutional convention was elected by a handsome majority.

our county.

In Breckenridge county Hon. Thos. H. Pettit and B. T. Birkhead were elected delegates to the Constitutional Convention Judge G. W. Williams being defeated by a small majority.

Cloverport Times. Straddled the wrong animal.

The Barbecue at Holt a Grand Success.

It was estimated that there was close to fifteen hundred people at the great picnic in Holt's Bottom last Saturday. It was the largest gathering of the kind that has been held in the county since the great Democratic rally at Hardinsburg in 1887.

Hon. W. E. Minor and Mr. L. D. Addison, who had matters in charge began two weeks ago to publish the meeting and make all arrangements for its success. The large crowd that assembled in response to their invitation was highly gratifying to them. The day was beautiful and in spite of the oppressive heat the people turned out in great numbers. The Louisville, St. Louis and Texas trains brought in large numbers from all down their line of road, and many came in carriages and other vehicles.

The picnic was held in a beautiful beech grove a hundred yards below Major Minor's residence. The large trees afforded ample shade, and for pleasure and comfort of so many people no more desirable spot could have been selected. A commodious stand had been erected on the ground for the accommodation of the speakers and other prominent gentlemen. It was beautifully decorated with flags and bunting. In the rear of it was suspended in large letters, "Our Next Governor." This of course was intended as a compliment to the distinguished Senator, Col. John Young Brown, who was to occupy it in the afternoon.

The fore part of the day was taken up by the young people dancing. At one o'clock speaking was to have begun, but it was about two o'clock Col. Brown got into the grounds. By this time the crowd had gathered about the stand and the appearance of Col. Brown was the signal for the groupings. He was introduced by Major Minor and his speech lasted for half two hours. He made a masterly effort and was given the best attention. To a large number this was the first opportunity they had of hearing Col. Brown. They only knew of him and of his reputation as an orator and of course were eager to hear him. When he commenced they were thoroughly convinced that both as orator and statesman his powers had not been over estimated. In his two hours address Col. Brown thoroughly exposed the inequities of Republican legislation that had been passed in this country for the last thirty years. He showed how that party had legislated in the interest of the manufacturers and monopolies, and how they were about to take absolute control of the affairs of this country. He spoke of the inequities of the tariff, and how it was oppressing the poor men of the country. His denunciation of the proposed Force Bill was terrific. He regarded it as the most high handed measure to rob the people of a free ballot that he ever heard of. He could not say what might come of it, but he felt that in power intended to enforce such a law upon the people. He urged upon all Democrats the supreme necessity of standing by their party and righting the great wrong that had been put upon them through the ballot. He believed that the Democratic party was the only party that favored the interest of the masses, and he did not want to see her lose ground any where along the line. He hoped, he said, that Democrats would come out and vote this time and swell the majority in old Kentucky ahead of anything it had reached in years. Col. Brown closed by announcing himself a candidate for Governor. His speech was appreciated by everybody and he left a good impression among our people. Senator Gilbert, of Shelby county, and Judge W. E. Russell, of Marion, followed Col. Brown with short speeches. Senator Gilbert a democrat, except a few Ohio river counties, including Davies and Henderson, but the rain was not sufficient to restore the desired vigor. Occasional showers here and there have fallen, but the tobacco is very seriously damaged in all drought stricken, and many reported 25 to 40 per cent, as comparative condition. Worms are said to be appearing in large numbers, and skin eruptions, and positively will depend on the season from now on, but it will require a good reason and a very late open market to bring the price of the '90 crop. With unfavorable conditions, our correspondents all indicate a much less yield than 75 per cent. The present average condition in the State is 60 per cent of last year.

Very respectfully,

CHAR. Y. WILSON, Commissioner.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and skin eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by E. W. Short, Cloverport, Ky., and J. A. Witt, Hardinsburg, Ky.

MONTHLY CROP REPORT.

Office of the Commissioner of Agriculture, Horticulture and Statistics, FRANKFORT, KY., AUG. 1, 1890.

Nearly all spring crops have failed to grow as rapidly as usual. The excessive rains in the winter and spring, with the absence of frosts, have the ground and subsoil clammy and chilly after being so long in this condition of the soil, the young and tender roots have not assimilated the plant food. Much of the last year's broken up soil, and has not been cultivated as well as usual. Nearly

## No Monkey Business

With us. We leave that for these "Hoop-la" clothing dealers with their brass band and spangles and glitter and glare. We conduct our business on a different system. When we sell you a suit of clothes there is only one profit to pay, because we manufacture our stock ourselves; when you buy Eastern-made clothing you pay the manufacturers' profit and you pay the retailers' profit, and in the case of some of them, you pay for the side-show attachments too. Put on your thinking cap and it won't take you long to comprehend the truth of what we say. Just now the only profit you pay to us is a very small one; in fact, since we cut down prices we have not been able to see any at all. "What is one man's loss is another's gain."

all crops have grown poorly, and are very uneven.

What?

The average of wheat was about equal to last year, and would no doubt have been a splendid success but for the freeze in March. The late sowing has done better than the early. The early sowing was better advanced, and much of it had jointed when the freeze came, and being very sappy, was more seriously affected. The crop has been saved in splendid condition, and threshing is now in full blast, and the yield, as far as is determined, is not exceeding 35 per cent of last year, some crops more and some less. There is a good deal of complaint of rust and smut. The berry is not up to the standard of a good flour yield. The best lands in the best wheat sections have produced some fine crops, but they are the exceptions. I will be able to give about the exact average per acre when the threshers' books are returned.

Corn.

The area of this crop was a half average, or 65 per cent, of last year, which was 1887. It was planted two or three weeks later than usual. The stand was generally fairly good, but it has grown uneven, and was controlled by the same conditions prevailing other spring crops. The drought which prevailed all over the State until the 23rd of July, seriously stunted the growth, and the early corn has generally tasseled low with a small stalk, and in the more droughty sections the tassels have died up, and many farmers will not make more than one-third to one-half crop. The more favored sections in rain fall will make a better crop, but for crop raising, up to the ordinary capacity of the soil. Taking it altogether, the outlook for this important product is very unsatisfactory. The general condition covering the State is 65 per cent, of last year, which was one of the best corn years known to the State.

Tobacco.

A great many correspondents have not replied to the questions of comparative acreage, and I am unable to give with accuracy, but will do so as soon as obtained. The rainfall during the setting season seemed sufficient for an average average, but some sections of the State are not so much as anticipated. All old land, especially old land, seemed to be in a condition not to promote the growth, and even at this date there is a very large amount of the old land crop yet in the chock. It is very uneven, and fully 15 per cent, as an average is butting in the hill. Much of it is withering very low, and the stalks having with a cabbage formation of leaves. It has been poorly cultivated, and getting a bad start in life, has not recovered. New land tobacco is doing much better, and some promising crops are reported. It is less missing in the hill, and a good deal of it is now being topped.

The rainfall about the 23rd of July was very general east of the railroad from Louisville to Nashville, and was in sufficient quantity to thoroughly wet the thirty soil. A few counties east of that road however, did not get the rains, and a very severe drought is now pending, and every form of crops and vegetation is being seriously damaged, much of the corn being past redemption. Western Kentucky is suffering most from the drought, except a few Ohio river counties, including Davies and Henderson, but the rain was not sufficient to restore the desired vigor. Occasional showers here and there have fallen, but the tobacco is very seriously damaged in all drought stricken, and many reported 25 to 40 per cent, as comparative condition. Worms are said to be appearing in large numbers, and skin eruptions, and positively will depend on the season from now on, but it will require a good reason and a very late open market to bring the price of the '90 crop. With unfavorable conditions, our correspondents all indicate a much less yield than 75 per cent. The present average condition in the State is 60 per cent of last year.

Very respectfully,

CHAR. Y. WILSON, Commissioner.
